Will the team meet  outside school time  during school time

**SAY YES!**

Yes, we will participate in the Youth Energy Summit and Co-opetition for the 2008-2009 school year. We understand that the fee for student participation is \$50 per student and that schools/organizations are responsible for providing transportation to 4 events during the year. SWIF may provide up to \$500 per team to offset participation costs. We further understand that the team and advisor commit to attending the summit activities and undertaking an energy action project in their community. PWELC staff expertise will be made available to assist the teams in this process. Projects will be judged and teams will be awarded monetary prizes for outstanding efforts. Schools and organizations that realize a cost savings through the Co-opetition projects may be asked to contribute a percentage of the savings back to the Youth Energy Summit and Co-opetition to help fund the YES program in the future.

Signature \_\_\_\_\_ Date \_\_\_\_\_

- Please provide more information about YES!
- Please visit our school to provide a presentation for  students  staff/administration
- We cannot field a team at this time, but please keep us posted about next year's event!
